

UC13 Declare/undeclare Personal Representative Use Case

13.1 Preconditions:

An HCP is a registered user of the iTrust Medical Records system (UC2). The iTrust user has authenticated himself or herself in the iTrust Medical Records system (UC3).

13.2 Main Flow:

The HCP selects a patient by typing in the MID of the patient [E1]. The HCP can choose to add or remove another registered user as a personal health representative to that patient.

13.3 Sub-flows:

None

13.4 Alternative Flows:

- [E1] The health care personnel types an invalid medical identification number and is prompted to try again.

13.5 Logging

Transaction Code	Verbose Description	Logged In MID	Secondary MID	Use Case(s) Involved	Type of Transaction	Additional Information	Patient Viewable
1300	Declare personal health representative	HCP	Patient	13	Create	MID of the Personal Health Representative	Yes
